All--

Here's what I was able to compile from all of OR's interim decision docs. However, many of mine are corrupted so I don't have word versions for a lot of the rationales. Don, the ones you send along seemed to have the same issues--cutting off after only one or two rationales. I've attached pdfs of all our interim decision docs (Feb 2004 and June 2008 coming separately due to file size limits). Jayne if you could work with your typist to add in the other pieces that would be great. I've noted in yellow highlights in the doc which rationales are missing and which decision doc they are from. Once we have a complete consolidated interim decision doc, we can start reading through to flag which sections will need to be updated, etc. We'll likely want to take a stab at streamlining some of the rationales, if possible, as well, since the doc is now up to 25 pg and is still missing some pieces.

This is what I'm missing....

Urban:

1. Watershed Protection and Existing Devel (latest rationale in Jan 13, 2004 doc)

Marinas:

2. Shoreline stabilization, sw runoff, fueling station design, solid waste mngt, liquid material mngt, and petroleum control (latest rationale in Feb 17, 2004 doc)
3. Sewage Facility Mngt and Maintenance (latest rationale in Feb 17, 2004 doc)
4. Fish Waste & Boat Cleaning (latest rationale in Feb 17, 2004 doc)
5. Boat Operation (latest rationale in Feb 17, 2004 doc)

Ex. 5 - Deliberative

Allison
